Go Ahead... Make your own day | HOMMAGE Atelier

Call it a bespoke enclave where an established man can prime, network, and unwind in a catered environment. Call it a luxury men's care artist's studio. Call it a relaxing venue where a man can take care of his business, and his body. Whatever you call it... don't call it a barber shop.

HOMMAGE Aletier by Julien Farel is by far the most elegant, luxurious and masculine grooming studio for men. What's more, it offers a comfortable environment with a brilliant perspective on world-class service.

Conveniently located at Julien Farel's 605 Madison Avenue Penthouse, your appointment with the best stylists and grooming specialists in the industry awaits. Each guest is greeted by the General Manager while a personal attendant checks your outer-wear and provides refreshments. During the day that means a double shot of espresso, and in the evening – nothing short of a single malt scotch. Once promptly seated in the lounge area, make use of a conveniently issued iPad while unwinding comfortably in *HOMMAGE* black slippers and kimono shirt.

The grooming menu offers everything from straight-razor shaves to bespoke accommodations including the famous *HandGrooming*, perfect for easing tension in the wrist, forearm, and fingers from constant use of mobile devices. Additional services are available from signature facials to foot grooming, and can be as intricate or as moderate as preferred.

We've taken the liberty to list just a few of our favorites from the menu:
